

**AMENDMENTS TO THE CLAIMS**

1. (Original) A method of treating or preventing Obstructive Sleep Apnea (OSA) including CSA, comprising snoring, sleep apnea and other forms of sleep disordered breathing, that comprises the administration of a pharmacologically effective amount of zonisamide to a patient in need thereof, with the proviso that said snoring, sleep apnea, and sleep disordered breathing caused by external mechanical obstruction of the airways, such as by mucus, is excluded.
2. (Original) The method of claim 1, wherein said therapeutically effective dose is effective during a substantial portion of a single sleep period.
3. (Original) The method of claim 2, wherein said substantial portion is 50% or more of said sleep period.
4. (Original) The method of claim 2, wherein said substantial portion is 80% or more of said sleep period.
5. (Currently Amended) The method of ~~any of claims 2 to 4~~ claim 2, wherein said single sleep period is from one hour to ten hours.
6. (Currently Amended) The method of ~~any of claims 1 to 5~~, claim 1, wherein the administration is peroral.
7. (Original) The method of claim 6, wherein the administration is sublingual.
8. (Currently Amended) The method of ~~any of claims 1 to 5~~, claim 1, wherein the administration is topical.

9. (Original) The method of claim 6, wherein the administration is confined to the frontal portion of the neck and the breast.
10. (Original) The method of claim 6, wherein the therapeutically active dose is released from a composition for controlled release over a period of time extending from 1 hour to 12 hours and more.
11. (Original) The method of claim 1, wherein from 50% to 100% of said therapeutically effective dose is released within a period of three hours from administration.
12. (Original) The method of claim 1, wherein from 80% to 100% of said therapeutically effective dose is released within a period of five hours from administration.
13. (Original) The method of claim 10, wherein said therapeutically effective dose is from 50 to 800 mg.
